COUNCILMANIC RESIGNATION TO BE READ AND VACANCY FILLED

Councilman Rickey to Quit Seat Tonight Because of Removal From Town

POSSIBILITIES MENTIONED

Former Councilman W. H. Calvert and Henry L. Swickey Suggested—Rickey Member of Important Committees.

Consideration of the resignation of Councilman John K. Rickey and the matter of a successor will be two matters of the utmost importance which will occupy the attention of the Charleroi borough council tonight at the regularly adjourned meeting.

Councilman Rickey is leaving for McKeesport this week to take up his position of manager of the McKeesport district of the Cudahy Packing company, making necessary his resignation at once.

Two names are being mentioned as possibilities for the seat and it is likely that one of the two will be selected to fill out the unexpired term. They are William H. Calvert, a former councilman and Henry L. Swickey. Either would make a good councilman. Both have many friends.

Councilman Rickey was elected in 1911 for the usual four years' term. His term expires the last of this year. He has served faithfully and at the present time is the chairman of the real estate committee and a member of the street committee, two of the most important.

TWO RESIGNATIONS IN HIGH SCHOOL FACULTY

Glenn T. McCauley Quits as Teacher of English and George S. Long Declines Place at Head of Manual Training Department

When the Charleroi school board met last Tuesday in its regular session it will face the prospect of filling two vacancies in the high school faculty. At that time the resignations of Glenn T. McCauley, who was elected to the position of teacher of English, and George S. Long, who was elected manual training teacher, will be considered.

McCauley and Long were both elected in May, and both accepted the places. Then McCauley was elected to the McKeesport schools. This position he has accepted and will leave at a later date. Long is employed as a steam fitter, out of a dispirited point and as manual training teacher at State College, from which he graduated not many years ago. He was induced to stay by a raise in salary, so sent his resignation here.

It is expected that by next Tuesday various applicants will have in their applications for both places, and that there will be elections.

CARNIVAL COMPANY IS STILL IN HARD LUCK

Concern Which Grew Tired of Wireton Grows Still More Tired After Pursuit Which Ends in Arrest of Prominent Members on Serious Charge

Signs of relief at leaving Wireton behind were re-echoed by those connected with the Barkoot Carnival company when they left Connellsville last Sunday and the general feeling obtained among the show folk that the life of a showman is worse than for instance the life of a newspaper man. This particularly applied to one "Cyclone" Mitchell, wrestler and his wife.

The carnival company went to Connellsville from Wireton, where disorder characterized a week's showing, and where on the final night of the performance operators of games of chance were arrested and sent to prison. A party of Greeks and a party of showmen one night got into a fight over a wrestling bout staged by Cyclone Mitchell. Mike Holnar was some hurt in this fray, and lost a coat in which he claims were valuables.

Arrests were made but they didn't suit Holnar who made information against Mitchell and his wife. It is said that in the possession of the suit Holnar's coat was discovered. However when the coat was recovered Holnar claims a diamond and other valuables, which he had had in one of the pockets were missing. The hearings will be given due attention in Westmoreland county upon Holnar's recovery.

ODD FELLOWS TO HOLD THEIR OUTING FRIDAY

Special trains will be operated to and from Duquesne from which point connection will be made by trolley car.

The special train will leave Roscoe at 8 o'clock in the morning and stop at points between there and Elizabeth inclusive. It will stop at Charleroi at 8:13 and it is believed a big crowd of Odd Fellows and their wives and friends will go from here. At the park a program of sports and various events will be carried out. There will be speaking and as one of the features a baseball game.

CHARLEROI MAN GETS BIG JOB

John K. Rickey Appointed To Managership of Cudahy's Largest District

TO ASSUME CHARGE AT ONCE

Councilman John K. Rickey has received notification of his appointment to the position of manager of the McKeesport district of the Cudahy Packing company, and will assume his duties next Monday there. Tomorrow he will leave for Chicago, the head offices of the company, and return to McKeesport to take up his work. He will later move his family to McKeesport.

Mr. Rickey's appointment comes as a merited promotion to the largest house conducted by the large meat firm in Western Pennsylvania. He will have charge of the trade that takes in many of the larger towns and cities of Western Pennsylvania, including Connellsville and that section and then branches into Fairmont and Mannington, W. Va., and Cumberland, Md., with the smaller towns between these points included. In McKeesport are located large offices and a large smoke house. Mr. Rickey there will have under him 25 men. His successor here will be A. V. Kempe of Braddock, who comes highly recommended.

Mr. Rickey came to Charleroi 12 years ago. For the last ten years he has been the Charleroi district manager of the Cudahy Packing company's interests and how he has succeeded is evidenced by his promotion to the responsible position which he now has won. He has served practically all of four years in council, having been elected in 1911. His term would have expired with the beginning of the New Year in 1916.

Decision of United States Pharmacopoeia Has Far Reaching Effect

DR. WILEY EXPLAINS MATTER

States That Anything Not Contained in Official Publication Cannot Be Sold—Physicians Not Using Liquor Much in Prescriptions.

Whiskey and brandy cannot be taken as "medicine" after January 1, 1916 and as a result every druggist in the United States who proposes to sell either intoxicant after that date will be forced to take out a license as a saloonkeeper, paying the high retailers tax and putting his place under all local and state regulations. Dr. Harvey W. Wiley declared this fact.

This situation is brought about by the decision of the revision committee of the United States pharmacopoeia to drop both whiskey and brandy from the publication. The elimination of these intoxicants from the book has the effect of withdrawing recognition of them as medicines. The pharmacopoeia is the official publication for the country and nothing which is not listed therein can be sold as medicine.

Doctor Wiley, president of the United States Pharmacopoeial Convention in announcing the decision of the committee said:

"Whiskey and brandy have been eliminated from the pharmacopoeia. No reason for the action can be given by any one except Dr. Joseph P. Remington of Philadelphia, chairman of the committee."

It is known, however, that the decision was not reached without a bitter fight. There are 51 members 50 of them being elected by the convention. Doctor Wiley, as president of the convention, is the only ex-officio member. The committee at first decided to ignore the question of eliminating whiskey and brandy from the list, but later the subject was reconsidered.

According to those in close touch with the arguments made in the discussion, one reason for the change is the growing tendency of physicians not to prescribe liquor as medicine. Representations were made that few prescriptions from physicians for liquor are taken to drug stores.

CHANGE

The majority of people who are oc-
cupied for fifty weeks out of the
year should seek in the remainder
two to find not necessarily rest, but
a change of environment.

The man who has struggled through
the crowded streets of a city, ridden
on packed trolley cars and rail-
road trains for months on end should
make his way to the quiet country
side, the camp in the woods or some
spot equally free from the press of
humanity, says the state health com-
missioner.

The man who lives in the country
or small town may find a correspond-
ing benefit from a week or more
spent amid the rush and turmoil of
the city. Each of these widely vary-
ing environments holds the possibi-
lity of affording a mental stimulus to
those who are unfamiliar with their
moods.

The mind no less than the body
needs refreshment and change. It
needs the stimulation of new ideas.
It is more difficult to acquire this
in our ordinary surroundings than
are everything is strange and
unusual and the mind is stirred to
activity. It is out of the question
for the man who maintains his regu-
lar routine day in and day out to
continue to put his work mentally
just.

We can become over developed
along our line mentally just as read-
ily as physically and the results may
even more seriously effect our well-
fare.

If in seeking for a change we en-
counter surroundings, which owing to
unfamiliarity, are not agreeable,
in the long run we profit. If in no
other way, at least they make our
own daily round seem more accept-
able by contrast.

So plan your vacation that it will
bring you to realize afresh how mul-
titudinous and interesting are the ac-
tivities of mankind or how soothing
to the weary mind are Mother Na-
ture's marvels.

WATCH YOUR WIFE

The advice is taken from the Al-
toona Tribune and is worth reprint-
ing. The Tribune has touched upon
a rather delicate subject when it
gives out the advice to "Watch your
wife." This is what the editor says:

Keep your eye on your wife.

Not to keep some other man from
stealing her, for wives worth having
are not stealable.

But keep her contented, for that
will help you to keep cheerful.

And to keep her cheerful, for that
will keep her pretty.

To keep her pretty is to help your-
self keep your eyes off other wo-
men—a very necessary thing for a
married man if he would be happy.

Keep in mind the girl you love—
the altar, for your wife is that girl
just as good, just as lovable, just as
sincere, just as honest.

Keep in mind also that you were
ready to do almost anything to get
her—and so you are reminded that
it's up to you to make some little
sacrifice in order to keep her.

Just keep your eye on your wife
and do your share toward making
success of your greatest business
undertaking—the business of being a
happy married man.

No wise citizen will involve him-
self in business deals of which he
has but a superficial knowledge. The
history of the American promoter of
financial schemes whereby large
sums have been taken out of the

pockets of the American people and
scattered should never be repeated.
It is a lesson that all should learn.

The Charleroi store employed on

it was a small industry. It doesn't
take much to make a small industry.

PICKED UP IN PASSING

"How many pancakes do you sup-
pose you could eat at a sitting?" in-
quired Uncle George, as he watch-
ed his little nephew stowing them
away.

"I don't know," said the boy. "The
most I ever had a chance to eat was
twenty-four. Ma won't let me try
for a record."

Four or five ladies bustled into a
private office the other day, says the
Philadelphia Public Ledger.

"What can I do for you, ladies?"
asked the manager, pleasantly.

"Why," began one of the visitors,
"we are taking up a subscription, and
we knew you wouldn't like it if we
didn't give you an opportunity to sub-
scribe."

The manager bowed gracefully and
asked: "And the object? Of course
it is a worthy one, or you would not
be interested in it."

"Yes, sir," replied the spokeswoman,
"we think it is a very worthy object.
It is to build a home for aged and in-
digent widows."

"Excellent! Excellent! I shall take
pleasure in making you out a check."

"Oh how lovely of you!" exclaimed
the spokeswoman when she had re-
ceived the bit of paper and read the
amount—one hundred pounds. "Oh,
we didn't expect to get that much
from you. We are ever so much ob-
liged."

"So good of him!" and similar ex-
clamations were heard as the check
was passed around for the admira-
tion of the party.

"But," said the lady who handled
the check last, "you haven't signed it."

"That is because I do not wish my
benefactions known to the world,"
said the manager modestly. "I
wish to give the check anonymously."

And he bowed the ladies out with
great dignity.

Getting Them Soft.

It was their first breakfast in their
little flat after they had returned from
the honeymoon trip. Lovey had asked
Dovey to fix him a couple of soft-boil-
ed eggs. When the eggs were served
Lovey opened one of them and found
it to be as hard as a rock.

"These eggs are very hard!" exclaim-
ed Lovey. "I wanted them boiled soft."

"Well, dear, they ought to be soft,"
replied Dovey. "I just boiled them and
boiled them just like you say they
must be soft. But I only boiled them
for twenty minutes. Perhaps I should
have let them boil for a half hour."

Looks That Way.

"Some men are born with silver spoons
right in their mouths," said Blands.
"And other men are born with horns."

Happy.

"Are the Millionbucks happily mar-

"Oh, very much so," replied Mrs.

and he spends his winters in California
and his summers in Switzerland."

A BIT OF PHILOSOPHY
FROM
A POOR MAN'S WEALTH
BY
JAMES WHITCOMB RILEY

poor man? Yes, I must confess—
No wealth of gold do I possess;
No pastures fine, with grazing kine,
Nor fields of waving grain are mine;
No foot of fat or fallow land
Where rightfully my feet may stand
The while I claim it as my own—
By deed and title, mine alone.

Ah, poor indeed! perhaps you say—
But spare me your compassion, pray!
A poor man? Yes, I must confess—
No wealth of gold do I possess;
No pastures fine, with grazing kine,
Nor fields of waving grain are mine;
But ah, my friend! I've wealth, no end!
For millionaires might condescend
To bend the knee and envy me
This opulence of poverty.

Time Treatment in Tuberculosis

In the May 25, 1912, issue of the
Journal of the American Medical As-
sociation appeared this statement
concerning calcium (lime) medica-
tion in the treatment of pulmonary
tuberculosis (consumption):

"Under the systematic, continued
and persistent regime of calcium
assimilation, Van Cieson has seen a
number of his patients improve, un-
dergo an exudation or partial con-
solidation in the lung, which then re-
sulting would appear to contribute
to the walling off and closing of the
lesions. Hand in hand with this
course of events, the sputum clears
up of tubercle bacilli, which finally
disappear, and the patients are dis-
charged with healed pulmonary tu-
berculosis."

Ethical medical journals seldom
speak so positively about a remedial
agent, yet this testimony coincides
with that from many consumptives
who have secured like results
through the use of Eckman's Altera-
tive.

Since calcium is a constituent of
this remedy for pulmonary tubercu-
losis and allied throat and bronchial
affections, its healing power may in
some measure be attributed to the
manner in which this element is so
combined with other ingredients as
to be easily assimilated by the aver-
age person and it does not irritate
the stomach.

Eckman's Alternative contains no
opiates, narcotics or habit-forming
drugs, so it is safe to try. If your
druggist is out of it, ask him to
order, or send direct to

I. E. Beckwith of Harrisburg, Penn.,
was a victim of disorders of the stom-
ach and intestinal tract. He tried treat-
ment after treatment. Nothing gave
him relief.

Then one day he discovered Mayr's
Wonderful Remedy—and soon was
happy.

Mr. Beckwith wrote to Geo. H.
Mayr, the maker of the remedy and
for twenty years the leading druggist
of Chicago.

"I believe that Mayr's Wonderful
Remedy is the greatest stomach rem-
edy on earth. One dose would con-
vince any one who is troubled with
his stomach of its wonderful merits.
It removed some of the most awful
looking stuff from my stomach. I have
taken other remedies, but they never
helped me."

Mayr's Wonderful Remedy gives per-
manent results for stomach, liver and
intestinal ailments. Eat as much and
whatever you like. No more distress
after eating, pressure of gas in the
stomach and around the heart. Get one
bottle of your druggist now and try it
on an absolute guarantee—if not satis-
factory money will be returned.

By Your Lathe

You need skill of hand, a keen eye and steady nerves, and when you get a crackerjack chew or smoke you know how it helps all three. Nothing like tucking good old FIVE BROTHERS into your pipe or taking a man's size chew, to hold you steady and put gimp into the job.

FIVE BROTHERS

Pipe Smoking Tobacco

is a substantial, satisfying, healthful tobacco—made for real men who like the honest taste of real tobacco.

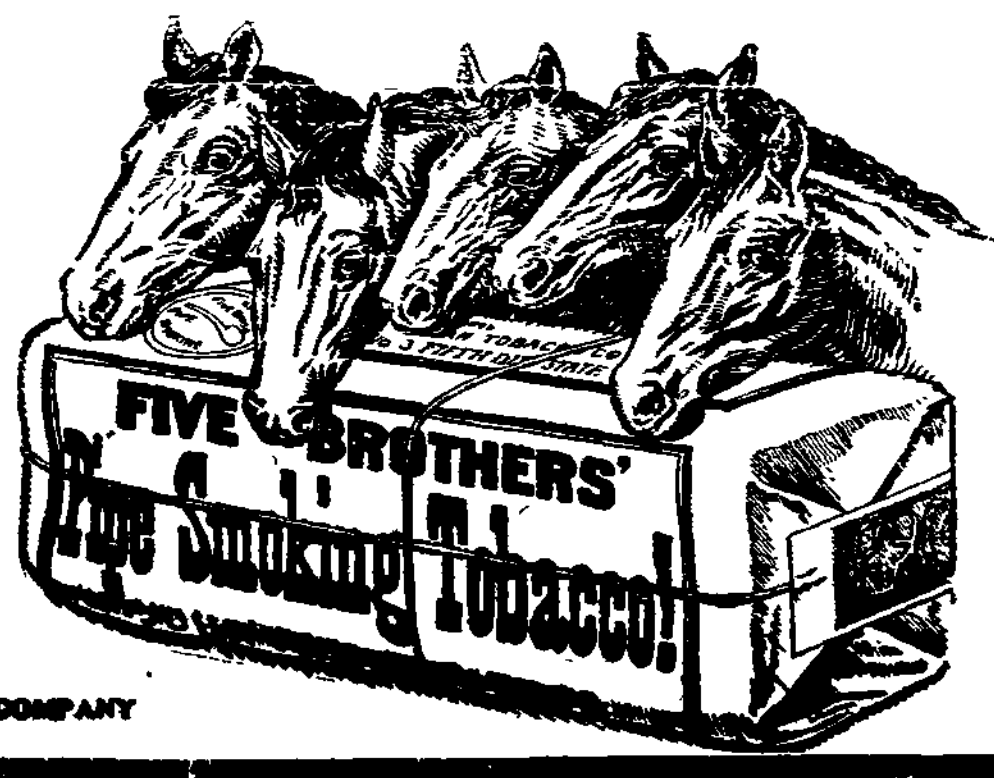

Manly men cannot get satisfaction out of insipid mixtures, any more than they can make a meal off of marshmallows. You go to FIVE BROTHERS to satisfy your tobacco hunger, just as you go to a beefsteak to satisfy stomach hunger.

We make FIVE BROTHERS out of pure Southern Kentucky leaf. We age it three to five years—so as to make it rich, ripe and mellow—sweet, juicy and pleasing. It's got the snap and taste to it.

It's the big, two-fisted kind of men, the country's "finest" who use FIVE BROTHERS because it is the one tobacco that always satisfies them.

You try FIVE BROTHERS for a week, and you'll always keep it on the job.

FIVE BROTHERS is sold everywhere—get a package today.

THE AMERICAN TOBACCO COMPANY

COUNTIES WILL GO REPUBLICAN

Signs Point to G. O. P. Capturing Local Offices.

MUNICIPAL ELECTION THIS YEAR

Electors Who Strayed Away From Republican Camp Are Coming Back In Droves, and Now the Only Talk of a Third Party Comes From Democrats Who May Get Behind Bryan.

Philadelphia, July 13.—Indications point to big Republican gains in the sixty-seven counties of Pennsylvania at the municipal election to be held this year. In all these counties local officials are to be chosen, and it is safe to predict that when the returns come in on the night of Nov. 2 the result will show that the people have favored the nominees of the Republican party.

Reports received at Republican headquarters make plain the fact that the party is steadily gaining health. The splendid victory last fall had a tonic effect on the voters in many counties who doubted the ability of the G. O. P. to come back, and there is little talk now of a third party. In fact in most counties former Bull Moose have not only sworn in as Republicans, but they are putting up some of their number as candidates for local offices on no ticket but the Republican. This is the best possible proof that in 1916 the Washington party will linger merely as a memory.

As the judgeships in counties where vacancies are to about to occur will be filled on the non-partisan ballot, the political parties must content themselves with making nominations for such offices as district attorney, prothonotary, sheriff, recorder, register, clerk of the courts, coroner and the sundry other county offices, the terms of which expire next January. Though most of these places are clerical in nature, party lines will be closely drawn, and with the exception of the few supposedly rock-ribbed Democratic counties the prospect of Republican nominees sweeping the field is exceedingly bright.

Is in the Air.

Conversion to Republican principles and policies seems to be in the air. Thousands of Democrats, men who even favored the ticket last fall, have become disgusted at the mess their party leaders are making of things, not only in Washington, but in Pennsylvania.

Democrats who are sticking to the ship because of having received appointments or the promise of a plum, privately admit that the skies for Democratic success in the future are anything but bright. They say that the Republicans this year will elect nine-tenths of their officials, and counties that are now represented by Democratic county officials will be completely turned around.

Drift to G. O. P.

This pronounced drift to the party in the several counties augurs well for one year hence, when the people will again be called upon to choose state officials. The tremendous majorities that Republican county candidates will receive this year cannot but assist the big fight in 1916. County organizations will be cemented as never before, and the workers will be in position to make a united stand against the common enemy.

At the primary election next May nominations will be made for United States senator, state treasurer, auditor general and four congressmen-at-large. In addition to these the various congressional districts will name candidates for seats in congress, as well as elect delegates to the Republican national convention.

Democratic Split Sure.

Pennsylvania Democrats, in common with Democrats all over the country, believe that the estrangement between President Wilson and former Secretary of State William Jennings Bryan, is sure to bring about the launching of a third party headed by the Nebraska Commoner. This scheme will first take definite form at the Democratic national convention, when Bryan is expected to bitterly oppose the renomination of President Wilson.

He will not present as his objection the war policy of the present administration, but rather the platform plank of the Baltimore convention in favor of one term for a president. Mr. Bryan feels that President Wilson has no right to seek re-election in the face of the plank in question, which by the way, was inserted at the request of the Nebraskan himself.

Philadelphia After Convention.

In reference to the next Republican national convention a strong movement is on to have that great conclave meet in Philadelphia. That city had the honor of receiving and entertaining the delegates who in 1900 gave the late President McKinley a renomination. Chicago, Cleveland, and St. Louis are also candidates for the convention in 1916.

The Discomfort of Dust

The advent of the automobile has made living in a great many communities almost INTOLERABLE.

A machine sweeps by your door and leaves in its wake a trail of dust that CHOKES and BLINDS you—that paints your flowers, your porch, your curtains, furniture, carpets and rugs with a coating of dirt.

YOUR HEALTH IS MENACED—YOUR PROPERTY DAMAGED!

You cannot enjoy the PLEASURES of your porch because it is not fit to sit on.

Your wife is CONSTANTLY WORKING to keep things CLEAN—the desire of every woman who takes a natural PRIDE in her home.

From the outside your house looks shabby and old. So does your neighbors'—practically the entire community.

How does this affect the chance visitor or the man looking for a new location?

Isn't it natural to suppose the first goes away and spreads the news that your town is NOT PROGRESSIVE? And the latter is unfavorably impressed and moves on to the next town whose citizens have appreciated the advantages of well-kept roads?

As a community you want to grow—to see your property improve in value—your merchants flourish—your taxes reduced.

You cannot accomplish these things if your roads are NEGLECTED.

And there is LESS REASON today for neglecting your roads than ever before.

Right at this moment The Atlantic Refining Company of Philadelphia and Pittsburgh, is under contract with this State to oil or resurface with asphalt hundreds of miles of State roads.

With a big fleet of auto trucks and wagon distributors, they are operating in every county in the State. This makes it possible to take care of your roads IMMEDIATELY, to make prompt deliveries of material, put it on the roads—in fact, handle the whole job in the most ECONOMIC manner for you.

One of the Atlantic road experts is now at work with the County Engineer. He will be glad to meet with you and CO-OPERATE to make your roads what they should be. He can furnish you accurate figures on the cost of any part or all of the work—he will ASSIST you in arousing interest and devising ways and means to finance the project.

Get in touch with this man.

This means YOU!

Write today to The Atlantic Refining Company, Philadelphia or Pittsburgh, and say you want to see the road expert in your vicinity.

Don't put it off—summer is here—the work should be done AT ONCE!

Valuables Estimated at \$200 Removed
Chamouni Man Being Loser—Trunk Completely Wrecked.

Robberies are becoming frequent and bold in the suburbs of Brownsville. During the past several days the authorities have received complaints of houses being ransacked during the daylight hours.

At Chamouni, an Italian stated his trunk was carried from the boarding house into a nearby field and torn to pieces and valuables taken to the amount of \$200. There was \$85 in money which represented a sum saved from his wages. Officers are working hard on the case and expect to land the robber within a few days. It is thought he is a boarded at the same house.

Women Jurors

"The women have to sit on juries of last resort," Dr. Anna Howard Shaw, president of the national suffragists, was recently asked.

Not here, she said. Dr. Shaw, who has been a leader of the women's movement for many years, said that the women's movement is not a movement of the future, but a movement of the present. She said that the women's movement is a movement of the present, and that it is a movement of the present.

PENNA. WOMEN FEEL FIT FOR CIVIC DUTY

Ask Why They Are Not As Well
Able to Vote As Western
Women.

Several years ago, before equal suffrage had become a live issue in Pennsylvania, a Western woman who was visiting in Bedford county was the center of attention at a woman's gathering there because she had voted at the last election in her home State. The Pennsylvania women wanted to know all about voting and there was much discussion.

One little woman, whose bent body and work-worn hands testified to the years of her faithful service in the equal partnership of farm life, showed the greatest interest but did not say a word.

"What do you think about it, Mrs. Smith?" finally asked Miss Edith Stuckey, who afterwards became county chairman of the suffrage organization in that section.

"Humph," answered Mrs. Smith, vigorously rocking in her arm chair, "if those women can vote I want to know why I can't."

Mrs. Smith's terse sentence expressed the position of Pennsylvania's womanhood so well that a woman suffrage association was organized on the spot and these Bedford women determined to find out why they were not considered just as well able to vote as were their sisters in the West.

"We knew that the women of twelve States of our Union had answered all the possible arguments and objections in regard to equal suffrage by their intelligent and successful performance of their full civic duties," said Miss Stuckey recently, in describing the start of the suffrage movement in her country. "We realized that the time had passed when this Nation could be content to limit liberty and equality for one-half its adult population by their location on the map. The women of Pennsylvania are, in intelligence and training, as well fitted to assume their civic duties as any women on earth. When our men go to the polls this November 2 we want them to remember this and vote 'Yes' on the suffrage amendment."

John Williams, president of the Amalgamated Association of Iron Steel and Tinworkers of the Pittsburgh district, says: "Any official or member of Pennsylvania labor organizations who does not work and vote for woman suffrage from now until election day is untrue to organized labor."

WHY?

Why should women be taxed to pay for the expenses of elections at which only men are allowed to vote?

LOS ANGELES HAS A "CITY MOTHER"

City Fathers Place Her In
Charge of Bureau For
Protection of Girls.

Los Angeles has an official city mother and is the first city in the world to possess such an officer. Mrs. Aletha Gibbert has been elected to the place by the City Council and police commission, with the approval of the new chief of police. She is surrounded by an advisory board of women and is at the head of what is called the "City Mothers' Bureau."

The plan is to make the bureau a haven for troubled mothers and erring or ignorant girls who need advice or police protection. The bureau is strictly confidential and does away with women having to face a morbid, curious crowd in court and the fear of publicity.

First offenses are reported to the home instead of the court. The conditions of wayward girls are bettered by placing them in private homes. Employment is found for those who wish it.

The bureau has already arranged a series of Saturday night dances, and is planning for a municipal ball to be given up to free public amusement. A polytechnic school for girls is to be established as soon as the money is forthcoming.

THE PIVOTAL QUESTION

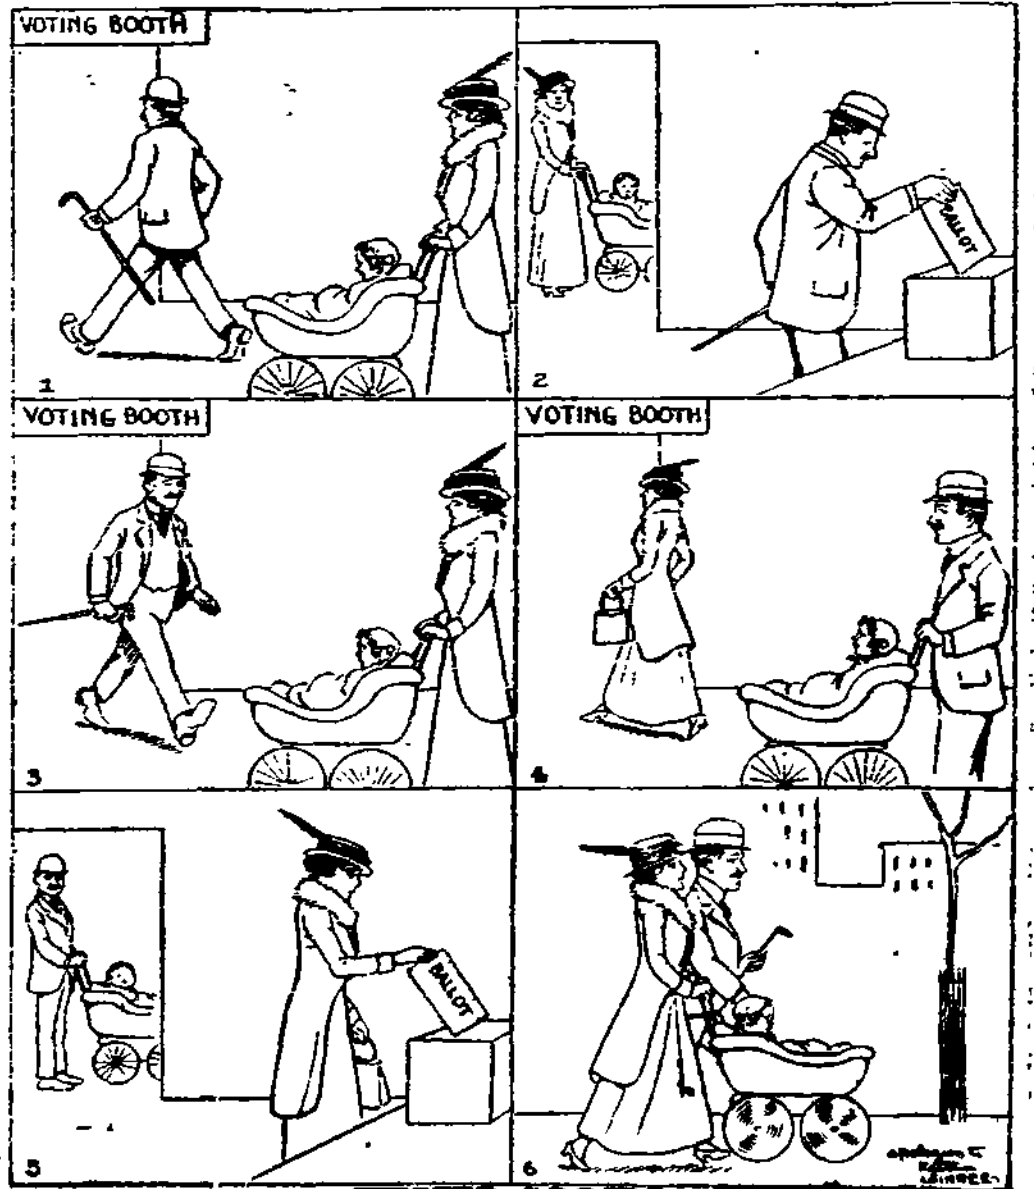

Said Joe to Sam in fierce debate. Upon the woman question. "You've answered well all other points. Now here's my last suggestion: When woman goes to cast her vote—Some nukes away, it may be—Who, then, I ask, will stay at home To rock and tend the baby?"

Said Sam, "I own you've made my case Appear a little breezy. Suppose you put this question by, And ask me something easy! Yet, since the matter seems to turn On this, as on its axis, Just get the one who rocked it when She went to pay her taxes!"

"Mother may I go out to vote?" "No, my darling daughter. Some kind man will do that for us, That is, if he feels he oughter."
